PEGASUS

Horizontal pre-made bagging machine

Technical Specifications:

MODEL	PEGASUS
Compatible range of bag size	W:3.9" - 8.25" H:5.9" - 14.95"
Packaging speed	25-55 bags/min*
Air consumption	0.85 bar/min
Voltage	220V 3PH
Total power	15 Amp
Dimensions	L 93" x W 70" x H 60"

Product Info:

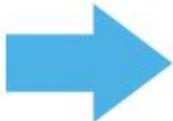

Our Pegasus is an in-line horizontal pre-made bagging machine. Its small footprint and throughput speeds make it the perfect addition for any size business. It's operator friendly and easy to maintain but it can also handle a wide spectrum of applications with high output capabilities. The Pegasus is designed to automate the packaging of self-supporting bags, flat bags, zipper bags and special-shaped bags. The ideal application is but not limited to food, medical & cosmetics.

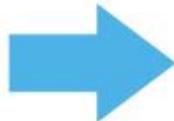

PEGASUS Equipment workflow:

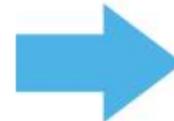

1 Bag storage

2 Coding

3 Open pouch

4 First filling

7 sealing and output

6 Flatten bag mouth

5 Secondary filling
